Technical Skills

Problem Solving:
Computational Problem Solving, Algorithm, Data Structure, OOP

Programming Languages:
C, C++, Python

Database Management:
MySQL, PostgreSQL

Version Control:
Git, GitHub

Framework:
Django, Flutter, Laravel

Mobile Platforms:
Android Studio

Projects

FinanceAgent

Developed an AI-powered financial research application for real-time stock analysis and intelligent web-based insights. Built a multi-agent system in **Python** with **Groq LLM**, **Yahoo Finance**, and **DuckDuckGo** integration, and delivered an interactive **web playground** for streamlined financial query exploration.

BeingScholar_Dynamic_WebSite

Developed a full-stack e-learning web app with a dynamic frontend using **Laravel Blade, CSS, JavaScript, and Tailwind**. Built the **PHP (Laravel)** backend with admin/student role-based auth, OTP email verification, password reset, transaction-based enrollment, and course/lesson/progress management.

Chat-App

Developed a modular, console-based chat application in Python to simulate multi-user communication and reinforce core **Object-Oriented Programming** concepts. Implemented structured classes for users, messages, and chat room management with features like membership validation, timestamped messaging, chat history tracking, and both demo and interactive execution modes using only standard Python libraries.

Online Judge Profiles

Codeforces Max Rating: **1195**
AtCoder Max Rating: **243**

Actively participated in over **100** programming contests. Solved over **1200** problems on platforms including Codeforces, AtCoder, VJudge, LeetCode etc.

Achievements

- **4th Place** — National Datathon CUET CSE Fest 2025 (Team: NeuronX)
- **1st Place** — Unlock the Algorithm Fall 2023 (Preliminary: A Slot)
- **12th Place** — Unlock the Algorithm Fall 2023
- **17th Place** — UAP IUPC (Team: DIU_NewComer)

Experiences

Problem Setter & Tester
Set & tested problems for intra-university contests

Session Volunteer
International Conference on Intelligent Data Analysis and Applications (IDAA 2025)

Training Classes
- DIU Take-Off Advanced Camp
- Programming classes on Data Structures & Algorithms

Publications

Md. Jobayer Ahmed Md. Naimul Islam Nuhas, Eiamin Hassan Shanto (2025). "Smart Crop Monitoring: Assessing Deep Learning Architectures for Multi-Class Citrus Leaf Disease Recognition". In: *International Conference on Intelligent Data Analysis and Applications (IDAA 2025)*. View Publication.

Education

2022 – 2025	**B.Sc. in CSE**	Daffodil International University (DIU)	CGPA: 3.91/4.00
2015 – 2017	**SSC**	Purinda K.M. sadekur Rahman High School	GPA: 5.00/5.00
2017 – 2019	**HSC**	Narsingdi Government College	GPA: 5.00/5.00
